Application: **SOFTWARE ENGINEER**

Dear Sir/Madam,

I am an accomplished software developer with 5.2 years of experience in the field of embedded and real time critical software systems using C/C++ as high-level languages. Expertise includes software development using OOP/OOAD, data structures, design patterns, and SDLC techniques, implementing and improving complex workflows in a time critical environment, enhancing the code quality for optimization and robustness and in-depth knowledge of AGILE scrum based methodology.

I have come across the profile of Da Vinci Engineering during the Embedded world conference. And I am very much motivated by the work being done in this company. At the moment I am looking for a new opportunity to leverage my skill in the favor of the company.

As a computer professional with the enthusiasm to accept new challenges, the opportunity to work as a software engineer at your company interests me considerably. With a proven record of achievement in positions of similar scope and responsibility, I am confident that I can make an immediate contribution to the success of your company.

My skill-set further contains :

- Programming/ Development in C,C++, python
- Software Development Life Cycle
- Experience with AGILE methodology.
- CAN, RS232,RS485,TCP/IP
- Data structures, Design principles, OO Programming.

I have enclosed my detailed resume that provides a detailed track record of my skills and achievements. I would greatly appreciate an opportunity to meet you in person to discuss the opportunity. Please feel free to call me at +4917647131895 or email me at vishalaries88@gmail.com

I would welcome the opportunity to discuss my background in greater detail, and look forward to hearing from you.

Yours sincerely,  
Vishal Vishal
